PROFILE

Commercial leader with 8+ years building net-new revenue engines and GTM strategies across B2B SaaS, Technology, and Media in APAC, EMEA, and LATAM. Specialise in converting commercial chaos into governance-grade frameworks: architecting scalable pipelines, defining SaaS/Media pricing strategies, and aligning sales–marketing–CRM operations for aggressive growth.

Currently Commercial Director at NEXT.io, reporting to the CEO. Built the company's first formal commercial and media departments from the ground up. Track record of driving Average Contract Value (ACV) from €60K to €100K+ and scaling high-margin digital/affiliate revenue streams to **€500K+ monthly recurring revenue** while operating as a hands-on technical architect for CRM and no-code workflows.

Lived and worked in Singapore from 2019 to 2022 across two senior APAC roles, managing multi-million-dollar regional P&Ls and local teams. Actively planning a permanent return to Singapore.

CORE COMPETENCIES

Commercial Strategy: GTM architecture, SaaS & media pricing governance, ACV/NRR optimisation, P&Q modelling	Sales & Pipeline Ops: Deep CRM data modelling, rigorous pipeline forecasting, coverage tracking, key account scaling
Marketing & Demand Gen: Department building, SEO/Affiliate growth, cost-per-MQL reduction, speed-to-lead	AI & Systems Architecture: Autonomous AI agents (Claude Code/MCP), no-code building (Softr/Airtable), CRM integration logic
Regional Leadership: Deep APAC operational experience; scaled cross-functional local teams and regional P&Ls	Sector Expertise: B2B SaaS, Enterprise Technology, iGaming, B2B Media, Professional Events

PROFESSIONAL EXPERIENCE

NEXT.io

Commercial Director

Promoted to establish and lead the company's first formal Commercial Department, reporting directly to the CEO. Direct reports include Sales Director, Marketing Director, and CRM Specialist. Accountable for P&L, pipeline architecture, pricing strategy, and multi-vertical product expansion.

- ACV & Margin Growth:** Drove Average Contract Value (ACV) from €60K to over €100K by overhauling pricing strategies. Introduced tiered discount authorities, replacing informal norms and driving an estimated **18% blended margin uplift**.
- Pipeline Forecasting & CRM Rigour:** Overhauled HubSpot commercial intelligence across a multi-vertical **€7M+ active pipeline** spanning Events, Media, and Community. Improved coverage ratios and forecasting accuracy by resolving unclassified deal aging and funnel breakdowns.
- Marketing Restructure:** Rebuilt marketing into a four-pillar model (Brand, Event, Media, Commercial). Recruited Director of Marketing, improving speed-to-lead and reducing cost-per-MQL.
- New Vertical Launch:** Architected the full GTM for NEXTPredict, NEXT.io's institutional prediction-markets summit in New York (Oct 2026) — positioning, phased pricing ladder, two-layer revenue forecasting model, and competitor benchmarking.
- Autonomous AI Demand Engine:** Designed and built a Claude-powered outreach engine that runs unattended every weekday — reconciling the mailbox against a living prospect ledger, scoring and selecting targets, researching personalised hooks from live sources, drafting voice-calibrated emails behind an automated linter, and shipping a daily sales brief with warm-reply handoff packets on a 24-hour SLA.
- NEXT OS:** Engineered a personal commercial operating system — scheduled AI routines pulling from HubSpot, Outlook, Fathom, Monday.com, and Bizzabo via MCP into an encrypted (AES-GCM) data layer, compiled twice daily into a deterministic editorial brief with a decision engine and calibration scorecard.

Head of Media

Recruited to build the Media division entirely from scratch. Transformed it into the company's most profitable business unit within 18 months.

- **High-Margin Affiliate Engine:** Built an SEO-driven affiliate module leveraging domain authority and premium backlinks, scaling this net-new channel to **€400K–€500K in monthly revenue**.
- **Recurring Revenue Products:** Launched the Research & Insights division, securing enterprise deals at €80K–€100K+ and contributing to a **80% Net Retention Rate (NRR)** company-wide.
- **Revenue Scale:** Took the division **3× in 18 months to €5M+ annualised revenue** — the company's most profitable business unit — across affiliate, podcast, video, and display advertising.
